

O Sun God, Savitr!
Thou dazzling fount of life-persuasive light!
Sublimest mystery speeding from afar!
Swift became that burst too potent on the sight!
This radiant type of strength and youth!
Glowing eternally!

శ్రీ వేపచేదు విద్యా పీఠము

May the golden-eyed Savitar come hither!
Steering forth he rises from the lap of the dawn!
Praised by singers, my God Savitar!
Stopped forth and never missed his place!
He steps forth the splendor of the sky the wide!
Seeing, far-shining, the shining wanderer!
- Rig Veda. vii. 65

VEPACHEDU EDUCATIONAL FOUNDATION

We alone shine!
All luminaries get illuminated by His Illumination!
The whole Universe is enlightened by His light!
- Kathopanishad

AWARDS, GRANTS, AND FELLOWSHIPS

FROM THE AMERICAN PHYSIOLOGICAL SOCIETY²

The Awards, Grants, and Fellowships programs are designed to strengthen and shape the discipline through awards that support, recognize, and publicize the scholarly and research activities of APS Members and non-members.

- The APS Integrative Organismal Systems Physiology (IOSP) fellowship provides hands-on summer research experience for undergraduate underrepresented students interested in exploring comparative and evolutionary biology research careers. The program provides exposure to IOS mission areas of comparative and evolutionary research³.
- APS Short-Term Research Education Program to Increase Diversity in Health-Related Research (STRIDE) Fellowship provides hands-on summer research experience for underrepresented undergraduate students interested in exploring biomedical research careers. The program provides exposure to the core National Heart, Lung, and Blood Institute (NHLBI) mission areas of cardiovascular, pulmonary, hematologic, and sleep disorders research⁴.
- The Undergraduate Research Excellence Fellowships (UGREF) program funds 6 full-time undergraduate students with significant prior laboratory research experience to work for 10 weeks during the summer in the laboratory of an established APS investigator. Each student has his/her own research question to work on during the summer. The intent of this program is to encourage students to pursue a career as a basic research scientist⁵.
- The Undergraduate Summer Research Fellowship (UGSRF) program funds 24 full-time undergraduate students with little or no laboratory research experience to work for 10 weeks during the summer in the laboratory of an established APS investigator. Each student has his/her own research question to work on during the summer. The intent of this program is to excite and encourage students to pursue a career as a basic research scientist. In addition, Fellows receive a travel grant to allow them to attend and present their research data at the following year's APS annual meeting (Experimental Biology), which is a broad-based scientific meeting of five to seven diverse biological scientific societies that are members of the Federation of American Societies for Experimental Biology (FASEB)⁶.

The deadline is 11:59 p.m. Eastern Time on February 1st.

Program	Applications Due	Notification of Decision
UGSRF	February 1	April 1
