

O Sun God, Savitr!
Thou dazzling fount of life-persuasive light!
Sublimest mystery speeding from afar!
Swift became that burst too potent on the sight!
This radiant type of strength and youth!
Glowing eternally!

శ్రీ వేపచేదు విద్యా పీఠము

May the golden-eyed Savitar come hither!
Steering forth he rises from the lap of the dawn!
Praised by singers, my God Savitar!
Stopped forth and never missed his place!
He steps forth the splendor of the sky the wide!
Seeing, far-shining, the shining wanderer!
- Rig Veda. vii. 65

PATENT COOPERATION TREATY (PCT) SYSTEM³

On 1 June 1978, PATENT COOPERATION TREATY (PCT)⁴ operations began and four months after it became possible to file PCT applications and demands for international preliminary examination.

In 1991, there were 50 Contracting States, in 1999 there were 100, and today there are 152 Contracting States, i.e., most countries in the world, are now part of the Patent Cooperation Treaty (PCT) system. In the first six months of the PCT existence, just 459 international patent applications were filed. Twenty-six years later in 2004, one million applications had been filed, and nearly 13 years after that in February 2017, the three millionth PCT application was published.

Every week, around 5,000 PCT applications are published in [WIPO's PATENTSCOPE](#) database, which now includes 3.4 million international patent applications that have gone through the PCT system to date in ten languages. The national phase entries increased from less than 100,000 in 1995 to 615,000 in 2017⁵.
